SUMMARY

As a freelance Web Developer, I have worked with clients worldwide to build websites using Laravel, PHP, WordPress, React, and e-commerce platforms like Shopify and Magento. I'm skilled in both frontend and backend development. I deliver projects on time, meet client needs, and enjoy solving real-world problems through </code>.

WORK EXPERIENCE

Freelance Web Developer   **Jul 2021 - Present**

Built websites for various clients using Laravel, WordPress, Shopify, Wix, Magento, and React. Focused on clean design, custom features, and easy content management. Handled full projects from planning to delivery.

Web Manager – OEH   **Oct 2022 - Present**

- Built a website to replace the client's manual system ➔ made daily work faster and easier
- Added auto features for managing content and data ➔ reduced manual effort
- Improved design and added new features as needed ➔ kept site fresh and user-friendly
- Ongoing support and managing future sites ➔ helping the client grow online

Web Developer – Al-Noor College   **Jan 2023 - Jan 2024**

- Converted static HTML sites into Laravel apps ➔ made them dynamic and easier to manage
- Built admin panels for staff to update content ➔ improved site control
- Added video upload and organization features ➔ supported online learning
- Integrated services to streamline tasks ➔ improved daily workflow

Cloud Networking Intern – Corvit Networks   **Apr 2023 - Jun 2023**

- Helped with setting up cloud servers and networks
- Learned how to manage hosting systems and solve network issues
- Got hands-on experience in basic IT support and cloud tools

---

EDUCATION

Bachelor of Business and Information Technology (BBIT)   **Mar 2022 - Apr 2026**
- Virtual University of Pakistan, Lahore
- Expected Graduation: 2026
